

FETAKGOMO MAYOR SEFALA KUKIE SEND GOOD WISHES TO 2014 MATRIC STUDENTS ON TRIAL EXAMINATION.

The matric class of 2014 has begun writing their trial examination for National Curriculum Statement (NCS) and Fetakgomo Municipality Mayor Her worship Councillor Sefala Kukie Raesetša Elizabeth has wished them well.

Over 1000 grade 12 learners around Fetakgomo started their trial examination on Monday 25th August until 22 September 2014. Learners are now expected to respond to what they have learnt throughout the past 7 months. You are urged not to succumb to pressure, but put believe in your ability to respond to each paper with calm and diligence. This is the platform to enable yourself to prepare for final examination and you have our support.

We wish to remind all that education is a societal issue. I urge all learners, educators, parents, guardians and all stakeholders to work together like ever before during this important period. Parents and guardians must assist their children by ensuring that they have enough time to prepare for their trial examinations while on the other hand educators must always be available for any support which learners may need. Equally learners must continue to revise with the same focus and dedication over the remaining period before the final examinations.

You should remember that “No challenge is without possibility of solution”. You will be faced with question papers which need your thinking and understanding. We call upon you to motivate yourselves and to work hard and persevere the four weeks of the trial examination.

Finally we are hopeful that Mayoral School Support Visit efforts including learner dedication and motivation will bear fruits. With fewer disruptions in learning and teaching in most part of our municipality, this year we are confident that the 2014 matric class will do us proud and sustain the improvement in the results we have recorded.

Let us move Fetakgomo Forward with 80% pass rate.
