### **TERMS OF REFERENCE**

#### **APPOINTMENT FOR PANEL OF SIX SPECIALIST /CONSULTANTS TRANSACTIONAL ADVISOR CATALYTIC INFRASTRUCTURE PROJECT PREPARATION AND FINANCE FOR A PERIOD OF THREE (3) YEARS.**

##### **1. BACKGROUND AND MOTIVATION**

Fetakgomo Tubatse Local Municipality (FTLM) has been recently (2023) classified as an Intermediate City Municipality (ICM). This categorization of FTLM as an ICM is testament to the great strides the Municipality has made across governance, financial management, infrastructure planning and implementation as well as overall service delivery. This is important, given the fact that FTLM is one of the fastest growing municipalities with regards to population, spatial and socio-economic levers. Demographically, FTLM has a predominantly young population, and hence, a high demand for employment and critical services. Socio-economically, the FTLM is characterised by high unemployment and subsequently, high poverty levels.

It is against this backdrop that the Municipality has prioritised the diversification of the economy by targeting key sectors such as tourism, agriculture, manufacturing, real estate, renewable energy, etc to increase overall contribution to the GVA and complement the currently dominant mining sector, under the Municipality's 2043 Vision and City Development Strategy. Various Master Plans are being developed for the different key sectors.

In terms of spatial aspects, FTLM is predominantly rural and, hence land ownership ranges between municipal, Department of Rural Development, traditional authorities and private sector. There has been rapid spatial development across the FTLM with projects implementation spearheaded through different models and strategic partnerships. FTLM has actively supported the different development projects through relevant plans, policies as well as strategic partnership programs, in line with the Municipality's City Development Strategy whose aim is to make the municipality a world class investment destination.

One major challenge that confronts the different spatial and socio-economic development programs has to do with inadequate bulk infrastructure and services. FTLM has embarked on a broad infrastructure development program under which an Infrastructure Implementation Plan with catalytic projects prioritised over the short-medium- and long-term horizons. It is against this background that the municipality seeks to appoint a Specialist Transactional Advisor responsible for Catalytic Infrastructure Project Preparation and Finance to assist in the planning of catalytic infrastructure projects and sourcing of the required funding. The successful bidder will be contracted for a period of three (3) years from the date of appointment. Due to the cross-cutting nature of the appointment and its centrality in achieving successful funding and delivery of key catalytic infrastructure projects in the municipality, this role will be situated in the Office of the Municipal Manager.

##### **2. OBJECTIVES**

The municipality seeks, through the assistance of the Specialist Transactional Advisor, to secure adequate funding required for the sustainable implementation of the different catalytic projects listed in the Long-Term Infrastructure Implementation Plan. This is key in enabling the municipality to unlock the socio-economic potential of the different spatial development regions

and effectively address service delivery requirements. Thus, the municipality seeks to achieve the following objectives through the appointment of the Specialist Transactional Advisor:

- Conduct regular technical and financial analysis and re-prioritization of the infrastructure projects in the Long-Term Infrastructure Implementation Plan;
- Detailed assessment and development of different funding models in terms of their suitability and availability as well as qualification requirements;
- Expediting infrastructure capital fundraising of priority catalytic infrastructure projects, and assess/develop required financing structuring;
- Complete the deal closure process of the projects, including the following:
  - Reviewing the term sheets of the funding;
  - Analyse suitability of funding instruments and terms in light of the off-take agreement needs and cashflow projections;
  - Enter into negotiations, and conclude legal agreements and contracting between all parties in each project;
  - Finalise all necessary documents for financial closure of the project; and
  - Project management and construction monitoring and evaluation of different projects.

### **3. SCOPE OF WORKS**

The appointed Specialist Transactional Advisor we will be responsible for the following among other duties:

- Regular review of the municipality's broad spatial and socio-economic programs and identify proposals where required;
- Regular review and updating of Precinct Plans, Sector Master Plans and associated Intergovernmental Project Pipelines to re-prioritize identified catalytic infrastructure to be implemented over the short, medium and long term;
- Conduct research and apply empirical evidence in identifying suitable funding models for the different priority catalytic infrastructure projects;
- Regular review and updating of the FTLM Long Term Infrastructure Implementation Plan, based on detailed prioritization modelling to align with suitable and available funding models;
- Coordinating the applications for and securing of required catalytic infrastructure project finance from various funding models;
- Ensuring that the municipality complies with the required funding models' reporting mechanisms and timelines;
- Coordinating processes required for financial and technical due diligence of different funding models and advising the municipality accordingly;
- Conducting any other infrastructure planning, implementation and project management-related specialist activities on an ad-hoc basis;

### **4. OUTPUT SPECIFICATIONS**

The Specialist Transactional Advisor will be required to work with the Municipality to regularly re-prioritize catalytic infrastructure projects, manage funding applications and

required negotiations, financial structuring, capital raising, project advisory, negotiations and contracting, project evaluation, monitoring and reporting. The key deliverables are as follows:

- Preparation of spatial development and investment plans required as part of funding applications under the Neighbourhood Development Program (NDP), Budget for Infrastructure (BFI), etc, to guide the municipality in project planning, budgeting and prioritization as part of the Long-Term Infrastructure Implementation Program;
- Preparation of mobility and accessibility plans required for optimising connectivity and inclusion which will form part of required funding motivations and applications;
- Development of detailed catalytic infrastructure project prioritisation, planning and budgeting models and liaising with the different SBUs to ensure seamless implementation;
- Conducting due diligence of different funding models and their suitability and availability (based on requirements) for the municipality to submit required applications. This will also involve arranging meetings with different potential funders to fully understand the application requirements, qualification criteria and application submission windows and coordinating through the Municipal Manager's office to ensure compliance;
- Coordinate the preparation of suitably packaged funding applications and business plans based on the due diligence studies for each funding application and assigned infrastructure projects;

#### CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids<sup>1</sup> invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).<sup>2</sup> Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
  - a take all reasonable steps to prevent such abuse;
  - b reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
  - c cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

**<sup>1</sup> Includes price quotations, advertised competitive bids, limited bids and proposals.**

**<sup>2</sup> Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.**
