

**FETAKGOMO TUBATSE
LOCAL MUNICIPALITY**

FTLM FINALTARIFF POLICY

2025/2026

PART 1: GENERAL INTRODUCTION AND OBJECTIVE

A tariff policy must be compiled, adopted and implemented in terms of Section 74 of the Local Government: Municipal Systems Act 2000, such policy to cover, among other things, the levying of fees for municipal services provided by the municipality itself or by way of service delivery agreements.

The tariffs policy has been compiled taking into account, where applicable, the guidelines set out in Section 74 (see part 9 of this policy).

In setting its annual tariffs the council shall at all times take due cognisance of the tariffs applicable elsewhere in the economic region, and of the impact which its own tariffs may have on local economic development.

PART 2: GENERAL PRINCIPLES

Service tariffs imposed by the local municipality shall be viewed as user charges and shall not be viewed as taxes, and therefore the ability of the relevant consumer or user of the services to which such tariffs relate, shall not be considered as a relevant criterion (except in the case of the indigency relief measures approved by the municipality from time to time).

The municipality shall ensure that its tariffs are uniformly and fairly applied throughout the municipal region.

Tariffs for the services rendered by the municipality, namely:

- Refuse Removal
-
-

***shall as far as possible recover the expenses associated with the rendering of each service concerned. The tariff which a particular consumer or user pays shall therefore be directly related to the standard of service received and the quantity of the particular service used or consumed.

The municipality shall, as far as circumstances reasonably permit, ensure that the tariffs levied in respect of the foregoing services further generate an operating surplus each financial year of 10% or such lesser percentage as the council of the municipality may determine at the time that the annual operating budget is approved. Such surpluses shall be applied in relief of property rates and for the partial financing of general services or for the future capital expansion of the service concerned, or both. The modesty of such surplus shall prevent the service tariffs concerned from being viewed as concealed taxes.

The municipality shall develop, approve and at least annually review an indigency support programme for the municipal area. This programme shall set out clearly the

municipality's cost recovery policy in respect of the tariffs which it levies on registered indigents, and the implications of such policy for the tariffs which it imposes on other users and consumers in the municipal region.

In line with the principles embodied in the Constitution and in other legislation pertaining to local government, the municipality may differentiate between different categories of users and consumers in regard to the tariffs which it levies. Such differentiation shall, however, at all times be reasonable, and shall be fully disclosed in each annual budget.

The municipality's tariff policy shall be transparent, and the extent to which there is cross-subsidisation between categories of consumers or users shall be evident to all consumers or users of the service in question.

The municipality further undertakes to ensure that its tariffs shall be easily explainable and understood by all consumers and users affected by the tariff policy concerned.

The municipality also undertakes to render its services cost effectively in order to ensure the best possible cost of service delivery.

In the case of directly measurable services, namely electricity and water, the consumption of such services shall be properly metered by the municipality, and meters shall be read, wherever circumstances reasonably permit, on a monthly basis. The charges levied on consumers shall be proportionate to the quantity of the service which they consume.

In addition, the municipality shall levy monthly availability charges for the services concerned, and these charges shall be fixed for each type of property as determined in accordance with the detailed policies set out below. Generally, consumers of water and electricity shall therefore pay two charges: one, relatively minor, which is unrelated to the volume of consumption and is levied because of the availability of the service concerned; and another directly related to the consumption of the service in question.

PART 3: CALCULATION OF TARIFFS FOR MAJOR SERVICES

In order to determine the tariffs which must be charged for the supply of the refuse removal service, the 'municipality shall identify all the costs of operation of the undertakings concerned, including specifically the following:

- Cost of maintaining the landfill site
- Collection Cost
- Depreciation expenses.
- Maintenance of fixed assets.
- Administration and service costs, including:
 - service charges levied by other departments such as finance, human resources and legal services.
 - reasonable general overheads, such as the costs associated with the office of the municipal manager.
 - adequate contributions to the provisions for bad debts and obsolescence of stock.
 - all other ordinary operating expenses associated with the service concerned including, (note: the costs of the democratic process in the municipality - that is, all expenses associated with the political structures of the municipality - shall form part of the expenses to be financed from property rates and general revenues and shall not be included in the costing of the major services of the municipality).
- The intended surplus to be generated for the financial year, such surplus to be applied: as an appropriation to capital reserves; and/or generally in relief of rates and general services.
- The cost of approved indigency relief measures.

The municipality shall consider relief in respect of the tariffs for refuse removal for such registered indigents to the extent that the council deems such relief affordable in terms of each annual budget, but on the understanding that such relief shall not be less than a discount of 100% on the monthly amount billed for the service concerned.

PART 4: REFUSE REMOVAL

The categories of refuse removal users as set out below shall be charged at the applicable tariffs, as approved by the council in each annual budget.

Tariff adjustments shall be effective from 1 July each year.

A separate fixed monthly basic refuse removal charge shall apply to each of the following categories of users, based on the costs of the service concerned:

*Residential, Vacant and other users (once weekly removal) Business and Industrial and other users (twice weekly removal) Business and other users (thrice weekly removal) Business (Malls) and other (bulk consumers) every day depending on the volume of waste.

Registered indigents may receive such discount on this charge as the council deems affordable when approving each annual budget, but on the understanding that such discount shall not be less than 100% of the monthly amount billed as a refuse removal charge. '

A fixed monthly charge shall be charged to the local municipality's departments equal to the lowest (domestic) tariff.

Exemption on Refuse in Properties at Ga-Mapodile and Mapareng
The 100% exemption will be granted to the residential properties for service charge on refuse removal in Ga-Mapodile and Mapareng.

PART 5: MINOR TARIFFS

All minor tariffs shall be standardized within the municipal region.

All minor tariffs shall be approved by the council in each annual budget, and shall, when deemed appropriate by the council, be subsidised by property rates and general revenues, particularly when the tariffs will prove uneconomical when charged to cover the cost of the service concerned, or when the cost cannot accurately be determined, or when the tariff is designed purely to regulate rather than finance the use of the particular service or amenity.

All minor tariffs over which the municipality has full control, and which are not directly related to the cost of a particular service, shall annually be adjusted at least in line with the prevailing consumer price index, unless there are compelling reasons why such adjustment should not be affected.

The following services shall be considered as **subsidised services**, and the tariffs

levied shall cover or as near as possible to 100% of the annual operating expenses budgeted for the service concerned:

- burials and cemeteries

The following services shall be considered as **community services**, and no tariffs shall be levied for their use:

- municipal libraries

The following services shall be considered as **economic services**, and the tariffs levied shall cover 100% or as near as possible to 100% of the budgeted annual operating expenses of the service concerned:

- maintenance of graves and garden
- housing rentals
- rentals for the use of municipal halls and other premises (subject to the proviso set out below)
- building plan fees
- cleaning of stands
- Photostat copies and fees
- Clearance certificates.

The following charges and tariffs shall be considered as **regulatory or punitive**, and shall be determined as appropriate in each annual budget:

- fines for lost or overdue library books
- advertising sign fees
- pound fees
- penalty and other charges imposed in terms of the approved policy on credit control and debt collection
- penalty charges for the submission of dishonoured, stale, post-dated or otherwise unacceptable cheques. .

Market-related rentals shall be levied for the lease of municipal properties.

In the case of rentals for the use of municipal halls and premises, if the municipal manager is satisfied that the halls or premises are required for non-profit making purposes and for the provision of a service to the community, the municipal manager may waive 50% of the applicable rental.

The municipal manager shall determine whether an indemnity or guarantee must in each instance be lodged for the rental of municipal halls, premises and in so determining shall be guided by the likelihood of the municipality's sustaining damages as a result of the use of the facilities concerned.

PART 6: ANNEXURE: LEGAL REQUIREMENTS

SECTION II: LOCAL GOVERNMENT: MUNICIPAL SYSTEMS ACT NO. 32 OF 2000

SECTION 74: TARIFF POLICY

The council of a municipality must adopt and implement a tariff policy on the levying of fees for the services provided by the municipality itself or by way of service delivery agreements.

Such policy must comply with the provisions of the present Act and any other applicable legislation.

Such tariff policy must reflect at least the following principles:

- that users of municipal services must be treated equitably in the application of the municipality's tariffs;
- that the amount individual users pay for services must generally be in proportion to the use of such services;
- that poor households must have access to-at least basic services through tariffs which cover only operating and maintenance costs, special tariffs or lifeline tariffs for low levels of use, or consumption of services or for basic levels of services, or any other direct or indirect method of subsidisation of tariffs for poor households;
- that tariffs must reflect the costs reasonably associated with rendering the service, including capital, operating, maintenance, administration and replacement costs, and interest charges;
- that tariffs must be set at levels that facilitate the financial sustainability of the service, taking into account subsidisation from sources other than the service concerned;
- that provision may be made in appropriate circumstances for a surcharge on the tariff for a service;
- that provision may be made for the promotion of local economic development through special tariffs for categories of commercial and industrial users;
- that the economic, efficient and effective use of resources, the recycling of waste, and other appropriate environmental objectives must be encouraged;
- that the extent of subsidisation of tariffs for poor households and other categories of users must be fully disclosed.

The tariff policy may differentiate in respect of services, service standards, service providers and other matters between different categories of users, debtors or geographical areas.

If the policy entails such differentiation, the municipality must ensure that this does not amount to unfair discrimination.

SECTION 73: GENERAL DUTY

The municipality must give effect to the provisions of the Constitution, and in doing so give priority to the basic needs of the local community, promote the development of the local community, and ensure that all members of the local community have access to at least the minimum level of basic municipal services.

The services provided by the municipality must be: equitable and accessible; provided in a manner conducive to the prudent, economic, efficient and effective use of available resources, and the improvement of standards of quality over time; financially sustainable; environmentally sustainable; and regularly reviewed with a view to upgrading, extension and improvement.

SECTION 75: BY-LAWS TO GIVE EFFECT TO POLICY

The council of the municipality must adopt by-laws to give effect to the implementation and enforcement of its tariff policy.

Such by-laws may differentiate in respect of services, service standards, service providers and other matters between different categories of users, debtors or geographical areas, but in a manner which does not amount to unfair discrimination.
