SUBJECT: MID YEAR ASSESSMENT REPORT FOR THE PERIOD ENDED 31 DECEMBER 2018

PURPOSE

The purpose of this report is to comply with section 72 of the MFMA and the requirements as promulgated in the Government Gazette No 32141 of 17 April 2009 (Municipal Budgeting Monitoring and Reporting Regulations: **MBMRR**)

STRATEGIC OBJECTIVE

To provide up to date financial and non-financial information to all interested parties as prescribed by MFMA.

BACKGROUND

Section 72 of the MFMA and in terms of Section 28 of the Government Notice 32141 dated 17 April 2009, regarding the “Local Government: Municipal Finance Management Act 2003 **Municipal Budget and Reporting Regulations**” necessitates that specific financial particulars be reported on and in the format prescribed, hence this report to meet legislative compliance.

“The accounting officer of a municipality must by 25 January of each year-

Assess the performance of the municipality during the first half of the financial year taking into account -

- (i) The monthly statements referred to in section 71 for the first half of the financial year,
- (ii) The municipality’s service delivery performance during the first half of the financial year, and the service delivery targets and performance indicators set in the service delivery and budget implementation plan

EXECUTIVE SUMMARY

1. INTRODUCTION

The monthly budget statement is prescribed in the MFMA and seeks to report on the implementation of the adopted IDP and budget.

The report covers revenue performance, operating expenditure performance, capital expenditure performance, and grant received and grants spend, cash flow, financial position, and investment portfolio, and external loans, debtors and creditors age analysis.

The tables are also prescribed by the MFMA with intention to bring comparability of financial and non-financial information across all municipalities. The report must be read together with the SDBIP for better understanding.

The budget monitoring and reporting office relies on various internal stakeholders to provide information for these report.

The financial result for the period ending **31 December 2018** are summarised as follows;

Statement of Financial Performance					
Description	ANNUAL BUDGET	ADJUSTED BUDGET	YTD Budget (R'000)	YTD Actual (R'000)	Variance% R'000

- Revenue for property rate and refuse removal is based on an accounting concept called accrual basis where revenue is recognised as and when a transaction occurs not when actual cash is received.
- Operational revenue recognised excluding capital receipts for the mid-year amounts to R368, 516 million.
- The planned revenue collection target of R376, 892 million at mid-year was outperformed by R8, 376 million (2 per cent).
- Although there has been a fairly good performance on the revenue recognized however there has been some under-collection on some revenue streams;

Revenue from exchange transaction

- Property Rates** shows an over spending of 13% on billed revenue. This emanates from additional properties which were not billed during the previous financial year. The budget in this regard needs to be adjusted upward to accommodate the billed properties.
- Service Charges** shows an over spending of 82% on billed revenue. The over spending in this regards was as a result of under projection of this revenue source during the budget process. The revenue source needs to be adjusted according during the adjustment budget.
- On **rental of facilities and equipment** under-collection of 43 per cent (R 131 thousand) was realized. This was mainly due to under-utilization of some facilities (Civic Hall, Community halls) at Apel regional office. In this regard there might be a need for adjustment as this revenue stream has been over budgeted.
- Interest Earned External Investment** shows an under collection of 99%. This emanates from the investments held in VBS which couldn't be paid back to the municipality. The whole amount of investment was impairment together with the

interest thus resulting in an adjustment of this projections during the adjustment budget as it is unlikely that the funds will be recovered.

- **Interest Earned Outstanding debtors** under performed by 63% as a result of debtors resisting to pay for outstanding debts. The collection rate has been non satisfactory during the past six months. Culture of payments needs to be imposed to our rate payers in order to maximize this revenue source.
- There is an under collection mainly on **Licenses and permits** of 85 per cent (R 5 million) against the planned budget of R 6, 5 million. This was due to construction of the station at Praktiseer offices which was temporarily closed. The revenue source needs to be adjusted downward during the adjustment budget.
- **Agency fees** under-performed by 57 per cent (R 1,2million) against the planned budget target of R 2, 2 million. This amount is informed by the collection rate above as the municipality receives 20% of collection from motor vehicle registration and also the industrial strike which was underway during November and December 2018. The revenue source needs to be revisited and adjusted accordingly.

Revenue from non-exchange transaction

- **Fines, Penalties and forfeits** under performed by 99 per cent(R 1,2 million) and this emanates from non-payment from offenders. Corrective measures has to be imposed against this non payers by applying credit control and debt collection mechanisms.
- The transfers recognized from operational grants shows a substantial under-collection of 1% which is below the acceptable norm of 10%.
- **Other revenue** shows an under collection 68% as a result of the implementation of Treasury regulation that tender documents must be placed on the municipal website for easy access to our service providers. The revenue source needs to be adjusted accordingly as revenue from tender documents will not be collected as expected.

1.3 MID YEAR OPERATING EXPENDITURE PERFORMANCE

The mid-year expenditure per type is as follows:

- The mid-year actual expenditure amounts to R176, 171 million whilst the mid-year planned expenditure was R291, 757 million. The results reflect an underspending of R115 million (40 per cent) against the planned targets.
- The underspending of R 291 million on the operating expenditure is mainly due to the following;
- **Employee Costs** shows an under spending of 7% as compared to the planned expenditure of 90 Million. This is still acceptable as it is below the 10% acceptable norm.
- **Remuneration for Councillors** shows an over spending of 2%. Although this over spending is below the norm, travelling and subsistence of councilors needs to be revisited and adjusted according as it show significant over spending.
- **Finance Charges** shows under spending as a result of interest on loan which will be payable during March 2019. The spending pattern will improve during the third quarter.
- **Depreciation and Asset Impairment** where not provided for during the mid-year. This was a a result of changes made to migrate from the previous system the municipality was using to the Financial system (Solar). The new system will be utilized during March 2019 and depreciation will be calculated using the Solar System.
- **Other materials** underperformed by 89% due to repairs and maintenance of other asset which was not done during the mid-year. This was due to the financial pressure that the municipality was experiencing. The projections has to be realistic as the municipality is currently under severe pressure. This projections will be revisited and adjusted according and only prioritise the emergencies rather than planned maintenance.
- **Transfers and subsidies** shows that there is an over spending of 41% as compared to the planned targets. This is as a result of Free Basic Electricity (FBE) paid to Eskom. Although the projections were understated, the municipality has to review the indigent register and scrutinize if all registered indigents qualify as such.
- The under expenditure of 60% for other expenditure is mainly due to operational projects which were not implemented during the 1st and 2nd quarter. The non-spending was as a result of financial pressure and a massive industrial action which lasted almost two most. Other operational projects were forced to be suspended as a result of the municipality being under severe financial crisis.
- The mid-year operating results is a surplus of R 192 million however, the planned deficit was R35 million which reflects an improved financial performance. Although the planned targets might show an improved financial performance, the reality is the municipality's financial performance is not on good standing. Revenue and expenditure projections has to be adjusted according to have a credible, funded and realistic budget.

1.11 RISKS AND CHALLENGES

This report shows various risk which must be attended to. This includes the following;

- Debtors' age analysis shows that the municipality is not collecting the billed revenue .The debtor's book continue to increase tragically which will lead to under collection of revenue as oppose to the budgeted revenue.
- The municipality is facing financial pressure as a result of the invested amount held in VBS. Adjustment budget is necessary in order to produce a realistic and credible budget.
- Reluctance of customer and government departments to pay for rates.
- Culture of payment should be imposed

1.12 CONCLUSION

- The performance assessment conducted and detailed provided above reflects that an adjustments budget will need to be done to ensure the challenges of over / under-collection on revenue , operating expenditure items, underperformance on cash flow and capital expenditure are addressed.

1.13 RECOMMENDATION

- That, the report is in compliance with, Section 72 of the MFMA regarding the “Local Government: Municipal Finance Management Act 2003 and Municipal Budget and Reporting Regulations” monthly financial results regarding the operating and capital budgets.
- This report is submitted to the Mayor of the municipality, the provincial treasury and national treasury within 30 working days after the end of each quarter.
- That all unit/ divisions in the municipality should review service delivery targets in line with the 2nd quarter performance.
- That the report is made public in compliance to section 75 of the MFMA.
