##### 6.1.1.1 General

**6.1.1.1.1** A committee system comprising the documentation committee, evaluation committee and tender committee shall be applied to all procurement procedures where the estimated value of the procurement exceeds the financial threshold for quotations and to the putting in place of framework agreements.

---

<sup>11</sup> This clause is required to ensure compliance with the requirements of the standard.

<sup>12</sup> SCM Regulation 26 of the MFMA requires that a committee system be established for procurement above the threshold for quotations. It is not, however, a requirement for such a committee to deal with quotations.

<sup>13</sup> SCM Regulation 26 of the MFMA requires that a committee system be established for procurement above the threshold for quotations. A municipality of a municipal entity may require that the tender committee (bid adjudication committee) also deal with quotations

The principle of segregation (an internal control designed to prevent error and fraud by ensuring that at least two individuals are responsible for the separate parts of any task) is dealt with the committee system in the standard as follows:

- procurement gate 3: a technical evaluation of procurement documents and an approval of such documentation;
- procurement gate 5: a technical evaluation of submissions and an authorization to proceed with the next phase of a procurement process; and
- procurement gate 6: a tender evaluation and a recommendation to award a contract.

of not less than five years after the completion or cancellation of the contract unless otherwise determined in terms of the National Archives and Record Services Act of 1996.

**6.1.1.1.6** Committees may make decisions at meetings or, subject to the committee chairperson's approval, on the basis of responses to documents circulated to committee members provided that not less than sixty percent of the members are present or respond to the request for responses. Where the committee chairperson is absent from the meeting, the members of the committee who are present shall elect a chairperson from one of them to preside at the meeting.

Other members shall, where relevant, include a representative of the end user or the department requiring infrastructure delivery.

**6.1.1.2.3** No member of, or technical adviser or subject matter expert who participates in the work of the any of the procurement committees or a family member or associate of such a member, may tender for any work associated with the tender which is considered by these committees.

<sup>14</sup> Stepped thresholds leading up to the 20% and 30% values given in PG8D may be necessary to manage cost and time overruns, respectively, the principle being that approval to exceed these percentages needs to be granted at a more senior level with each increase. For example, the increases for cost overruns could be as follows:

- ≤ 2,5 % - contract manager;
- 2,5 to 10% - project director
- > 10% - appropriately delegated authority
